Refresher: MA Accountability System 101

- 1 The Massachusetts accountability system consists of two components...

Normative Component (Accountability Percentile)

measures the performance of all students in a school compared to other schools in the state that serve similar grades, and is reported as a percentile from 1 to 99

Criterion-Referenced Component (Targets)

measures a district's or school's progress towards improvement targets, and is reported as a percentage

- 2 ...that measure performance of groups, schools, and districts on specific indicators...

Achievement

Student Growth

High School Completion

English Learner Proficiency

Additional Indicators

- 3 ...and are used to categorize schools and districts as requiring assistance/intervention or not.

	Not requiring assistance or intervention				Requiring assistance or intervention	
Schools of recognition	Meeting or exceeding targets	Substantial progress toward targets	Moderate progress toward targets	Limited or no progress toward targets	Focused/ targeted support	Broad/ comprehensive support
Recognized for high achievement, high growth, or exceeding targets	Cumulative criterion-referenced target percentage 75-100	Cumulative criterion-referenced target percentage 50-74	Cumulative criterion-referenced target percentage 25-49	Cumulative criterion-referenced target percentage 0-24	-Percentiles 1-10 -Low graduation rate -Low performing group(s) -Low participation	-Underperforming schools -Chronically underperforming schools
